

Symposium on
Climate Change: Issues and Imperatives
16th Feb 2010

Venue: Council Hall, Admn Block Bldg
Organized by
Department of Environmental Science
B BA Central University
Lucknow-226025

Background: Conference of Parties COP as a part of United Nations Framework Convention on Climate Change and its non binding but much eagerly awaited Copenhagen Accord has opened a plethora of issues of global importance. India and 25 other countries have agreed to this accord albeit much has been left for further negotiations. India as a part of BASIC (Brazil, South Africa and China) group did exceptionally well in safeguarding the very Kyoto Protocol. However many issues that have been surfaced as a part of Summit, like the agreement on emission cuts, financing for poor nations, forest protection, technology transfer and carbon trading etc.

To deliberate on this multidisciplinary issue a symposium involving all the stake holders viz, academia, policy makers, executives, NGOs, media and students is proposed but not limited to followings themes:

- Climate Change Concepts
- Ecological Impacts of Climate Change
- Environmental Policies and Regulation
- Technology issues
- Development and Sustainability

Highlights:

Symposium will be inaugurated by Prof B. Hanumaiah VC, BBAU, Lucknow

Plenary speakers:

Prof PW Ramtane, AAI-DU, Allahabad
